

Shoulder ABDuction Pillow 15° - Abduction orthosis

ART.NO 20130

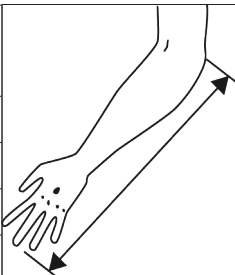

Abduction orthosis with cushion that keeps the arm/shoulder immobilized in 15° abduction. The relieving 3-point system is easy to apply and does not press on the neck. The length of the straps can be easily adjusted by cutting them and moving the y-gap. The soft arm pouch can be opened quickly for arm mobilization or personal hygiene without having to remove straps or cushion. Fits both left and right arm. An extra hygiene strap for the armpit is included in each kit.

Indications: Provides support and immobilization after rotator cuff surgery, capsule joint repair, Bankart repairs, general shoulder instabilities.

Contraindications: None known.

Material: Polyester, Nylon, PU Foam. Latex free.

Tvåttråd: Machine wash at 40°C (106°F). Seal the Velcros. Use washing bag. Do not bleach. Do not dry clean. Do not iron. Do not tumble dry
