

Contender - Elbow brace

ART.NO 20203

Contender elbow orthotics used in post-operative or post-traumatic stabilization arm and elbow to give controlled range of movement or immobilization. Telescopic mechanism for easy adjustment of the length. Aluminum-cuffs around the upper and lower arm can be shaped individually so the risk of slippage decreases.

The Cuff placed over the biceps/elbow joint can be removed, making it possible to use for patients with large biceps/over arms, (improve flexion) The orthotics can easily be placed with one hand using snap lockers.

The padding is soft and relieving.

Extension and flexion can be adjusted and fixed from -10 - 90 °. The setting takes place in intervals of 10 °. Controlled movement range from -10 ° - 110 °. The setting is secured with a lock-rubber band.

Indications: Used for post-operative or post-traumatic stabilization. Muscle/ligament injuries. Distal humeral fracture. Elbow plastics. Stable elbow fractures. **Contraindications:** Instable fractures and fractures in humerus, radius or ulna.

Size: Universal. Available for right and left arm. Orthosis length 35-50cm, fit the upper arm. Range up to 56 cm, forearm range up to 46 cm.

Material: Rail: Lightweight Aluminum.
Cuff: aluminum and nylon.
Padding: Polyethylene and nylon.
Latex free.

Washing instructions: The aluminum rail wiped with a damp cloth. Padding hand wash in cold water, dry flat, do not use bleach.

Additional accessories: Optional accessories include a comfortable hand piece loaders. Positions and fix the wrist in a neutral position to avoid pro- and supination. Hand part is designed as a wrist which encloses the soft hand and wrist. The obsession is very good and makes unwanted muscle activity around the elbow joint is reduced. Hand part provides stability for the entire orthosis that allows the extra firmly without slipping or rotating.

Removable bicep cuff. Helps avoid incision site irritation for people with large biceps/over arms and promotes greater flexion range.

The comfortable hand piece is an optional accessories, order separately.
