

Figur - Binder

ART.NO 50222

Figur binder provides relief and efficient support for wounds after thoracic and abdominal surgery. The wide, adjustable Velcro front closure makes the product easy to put on and adjust to requested compression. Can be closed right or left side. Figur provides a consistent compression around the whole abdomen area and does not affect the patient's ability to breathe comfortably.

Level of compression: Soft, 1 out of 3.

Indications: Binder for stoma/non-complicated parastomal hernia. To prevent hernia. Binder/fixation band to be used after different types of surgery on abdomen/torso for mobilization after surgery.

Contraindication: Incarcerated hernia.

Material: 74% Polyester, 12% Elastomere, 14% Polyamide. Latex free.

Washing instructions: Machine wash at 60°C (106°F) (the product will last longer if washed at a lower temperature). Seal the Velcros. Use washing bag. Do not bleach. Do not dry clean. Do not iron. Do not tumble dry.

Measurement: Circumference of intended placement.
