

Dolly - Compression body

ART.NO 51207

Compression bodysuit with high back in knitted seamless material. Recommended after surgery on buttocks, hips abdomen and back, such as liposuction and/or surgery. The body has a hook and eye closure in the middle front for easy application and adjustable fit. Wide wedge on the inside thigh for best comfort and function. The body has a hidden opening in the crotch wedge that allows toilet visits without the garment being removed. The opening is designed to provide good compression in the area. Wide cut in the back and adjustable shoulder straps for good compression over the back and along the sides. Shape knitted material in 4-way stretch follows the body contours. The stable, soft material provides evenly distributed compression without discomfort or digging in to the skin. Shape knitted zones over buttocks and groins for better fit. Reinforced knitting around abdomen for extra support.

Indications: Compression garment after plastic surgery.

Corresponding class 1.

Contraindications: Infection. Arterial circulatory disorders. High risk of thrombosis.

Material: 87% Polyamide, 13% Elastane. Latex free.

Washing instructions:

Machine wash at 40°C (104°F), can if necessary be washed at higher temperatures, up to 60°C (140°F). The product will last longer if washed at a lower temperature. Use a laundry bag. Do not use bleach or fabric softener as this can impair the function of the material. Do not tumble dry.

Measurement: For best fit and correct compression it is important that measurements are taken carefully and size chosen according to the measuring table. The fit of the garment should be tight but comfortable.

Waist: Measure around the thinnest part of the waist.

Hips: Stand with both feet together and measure the circumference over pubis, where hip/seat is at its widest.

Thigh: Circumference measurements at the middle of the thigh.
