

Stride Duo - OA Knee Brace

ART.NO 70656

Stride Duo has double shin straps for increased knee stability. Used for pain relief and to facilitate and improve function in knee osteoarthritis. The orthosis has the unique ability to angle the splint with the supplied key and can be set for medial or lateral relief. The range of motion can be set in extension 0°, 5° 10°, 15°, 20° & 25° and flexion 45°, 60°, 75° & 90°. The anterior tibial cuff allows for easy application and removal and is curved to fit comfortably over the tibia. The flexible straps in the thigh cuff are lightly lined for good comfort and flexibly adapt to the shape and contour of the thigh throughout the movement.

Indications: Mild to severe unicompartmental knee osteoarthritis with ligament instabilities. Increased rehabilitative and functional support for diagnoses that require reduced medial or lateral joint loads.

Contraindications: Not intended for people with weight >110 kg.

MD Class I CE

Size: S-2XL. Available for right and left knee.

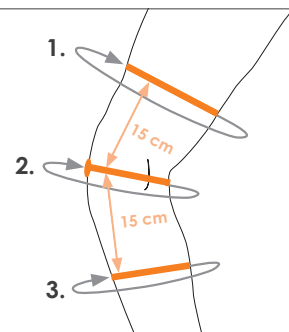

Material: 38% Aluminium/Polymer resin, 32% Nylon, 10% EVA Foam/Doeskin, 6% Stainless steel, 5% Polypropylene, 3% Delrin, 3% Neoprene, 3% Polyester. Latex free.

Washing instructions: Thoroughly rinse brace and air dry. Liners should be removed and hand washed as needed using cold water and mild detergent, rinse thoroughly and air dry. Periodically check the condition of the Velcro to ensure they are free from grease and damage.

Accessories*: Extra liner & bands can be ordered separately.
